THE ART OF SEDUCTION

The exterior colours of the Mazda MX-5 are designed to be eye catching, boasting a delicate beauty and commanding character. This aesthetic excellence is achieved through Mazda's meticulous painting technology known as Takumi-Nuri. This is a high-quality painting technique that breathes life into the Kodo design, magnifying the beauty of each and every line. It artfully balances depth and glossiness, resulting in a finish reminiscent of a hand-painted concept car.

This is particularly evident in the signature Soul Red Crystal and Machine Grey premium colours which showcase the full potential of the MX-5, captivating attention and accentuating its elegant form.
