

FEEL ALIVE®

I believe in the power of human potential;
creativity, imagination and the amazing things
we're all capable of when we're inspired.

I believe in taking the unconventional road
and going the extra mile to do work that inspires,
because I believe the highest purpose of being human
is to uplift other humans.

I believe in artisans, designers, engineers and ambassadors
who pour human energy into their work,
because I believe there are things the human hand can do
that can't be replicated by a machine or a computer.

I believe in the power of cars to move human emotions.
To awaken senses, heighten reflexes, make pulses race.
To be more than a cold machine designed to take
you from here to there.

I believe the joy of being alive comes from
what we discover on our journey,
and the inspiration we find in every mile.

MAZDA. FEEL ALIVE.®

KODO: "SOUL OF MOTION"

Our design philosophy is simple yet highly challenging to accomplish: capture energy in motion, even at a standstill. With curves and angles so striking, they command your attention through a mere glance. Eliciting this kind of instant emotional response requires a human touch. Hands on clay, shaping form with warmth and precision. Eliminating all that is unnecessary, leaving only what is beautiful. We call this Kodo: "Soul of Motion" design. A dynamic sense of motion created for humans, by humans. This is the inspiration behind the Mazda MX-5 Miata.

MAZDA MX-5 MIATA

From its inception, the Mazda MX-5 Miata was designed to capture the pure exhilaration of driving. For over three decades, our engineers and designers have never stopped challenging themselves to improve upon its legendary handling and performance, collecting countless awards and distinctions along the way. Today's MX-5 Miata is a technologically smarter car that remains lightweight, nimble and incredibly responsive to any driver who gets behind the wheel. Like the very first MX-5 Miata to hit the streets over 30 years ago, it continues to be beloved by drivers the world over.

Mazda MX-5 Miata RF Grand Touring shown in Machine Gray Metallic

MAZDA MX-5 MIATA RF

"How much joy can a car bring?" This is one of the thousands of questions Mazda engineers asked themselves when developing the MX-5 Miata RF. Asking these questions is what led to the creation of a sports car that is just as much in its element on a night out in the city as it is on a winding country road. The fastback styling of the MX-5 Miata RF combines the comfort and peace of mind of a hardtop with the spontaneity and unparalleled driving exhilaration of the legendary MX-5 Miata roadster. In approximately 13 seconds, its retractable roof slips away, revealing the open sky and all its possibilities.

THE ART OF SEDUCTION

One of the first things you'll notice with any Mazda is its color. The glossiness. The luster. The depth and translucency. It's far beyond what you'd expect from a production car. Each MX-5 Miata color is created by a master painter and color designer who work as a team to illuminate the curves and characteristics of our Kodo design. Our daring array of radiant finishes may be the final touch on the MX-5 Miata, but it's the first thing that will catch your eye—and continue to draw your gaze, time and time again.

Visit [MazdaUSA.com](https://www.mazdausa.com) to see all the vibrant color choices available.

THE HUMAN TOUCH

The Mazda Takumi are the artisans and craftsmen who hone their skills for years, even decades, to achieve mastery. From their first sketch to the final stitch, their passion, patience and persistence are poured into every car. Utilizing their sense of touch as much as sight, the Takumi masters gracefully carve a block of clay into a work of art. With an innate sense of composition, they ensure that every curve is perfectly proportioned to their final vision. This hand-sculpted creation ultimately enriches the emotional bond between you and your MX-5 Miata.

REDEFINING REFINEMENT

Our Takumi set out to create beauty through shape, texture and color. Every stitch, every inch of our carefully constructed cabin, is designed to engage you with a tactile and visual experience. Expert fabricators craft a range of distinct and expressive designs using soft textures and premium stitching. And our perforated Red Nappa leather upholstery with Light Gray stitching, now available in select 2020 Grand Touring models, adds a dynamic energy to each drive.

ONENESS BETWEEN DRIVER, SKY AND MACHINE.

For decades, we've studied the human body—how it moves, sensations of touch, sound and sight, muscle and skeletal structure. This is the human-centric design philosophy known as Jinba Ittai—horse and rider as one. An intuitive instrument panel places gauges and displays within your line of sight to minimize distraction. And with either the short-throw 6-speed Skyactiv®-Manual Transmission or the available 6-speed automatic with steering-wheel-mounted paddle shifters, you have the freedom to shift gears in an instant. The MX-5 Miata is designed with near perfect 50/50 weight balance—the ideal distribution for optimal handling and performance. You feel as though your Mazda is an extension of your body, anticipating and answering your every command.

MAKE A SMARTER CONNECTION

Your inspiration. Your space. Your cockpit. This is the driver-centric cabin of the MX-5 Miata, where every control is situated within your reach, so you can stay focused on the road ahead. The center console and Commander control are positioned for optimal comfort for the wrist and forearm. The Mazda Connect™ Infotainment System¹ features a 7-inch full-color touch-screen display and is available with Apple CarPlay™ integration¹ for your iPhone® (shown) and Android Auto™ integration.¹ Grand Touring models now feature a three year subscription to SiriusXM with Sirius Traffic and Travel Link.² Communication between you and your vehicle becomes second nature—by design.

¹ Apple CarPlay shown while using iOS 13. Don't drive while distracted or while using a hand-held device. See full disclaimer in Specifications. Android and Android Auto are trademarks of Google LLC. Apple CarPlay and iPhone are trademarks of Apple Inc.
² Current information and features may not be available in all locations. See full disclaimer in Specifications. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc.

DRIVING IN ITS PUREST FORM

From the engine to the chassis to the transmission and beyond, we've designed every aspect of the MX-5 Miata to work in harmony through an approach we call Skyactiv® Technology. The MX-5 Miata's Skyactiv®-G 2.0L engine's 181 hp is engineered to flawlessly match its light yet strong chassis to create the ideal power-to-weight ratio. Add to that the nearly perfect 50/50 weight balance, and the MX-5 Miata becomes something far greater than an assembly of its parts. It becomes alive.

A COMMUNITY OF RACERS

On any given weekend, more Mazdas and Mazda-powered cars are road-raced in the U.S. than any other car! At Mazda Motorsports, it's our mission to support the thousands of racers who have chosen to race our cars in grassroots competitions. We've created a dedicated call center to answer technical questions for our community of drivers. For enthusiasts who want to test their talent at a higher level, we've developed the Battery Tender® Global MX-5 Cup. Because we want to get racers off the sidelines and behind the wheel.

Visit Mazdamotorsports.com to learn more.

A GREATER SENSE OF AWARENESS WHEREVER YOU GO

To heighten your senses, we created a few of our own. Sophisticated safety innovations that alert you to hazards and help you avoid collisions—or lessen their impact. All MX-5 Miatas are equipped with select i-Activsense® safety features including Blind Spot Monitoring,¹ Lane Departure Warning System,² Smart City Brake Support³ and Rear Cross Traffic Alert¹ to help improve your visibility and awareness of the road. These advanced systems and their alerts contribute to a more confident experience behind the wheel.

¹ Always check your mirrors. Be aware of the traffic around you. There are limitations to the range and detection of the system. Please see your Owner's Manual for further details. ² Lane Departure Warning System operates under certain conditions above 44 mph. It is not a substitute for safe and attentive driving. There are limitations to the range and detection of the system. Please see your Owner's Manual for further details. ³ Smart City Brake Support operates under certain low-speed conditions between about 2 and 18 mph. It is not a substitute for safe and attentive driving. Factors including movement and shape of the object in front of the vehicle, weather and road conditions can all impact automatic brake control and collision warning. Please see your Owner's Manual for further details.

THE TWO-SEAT AMPHITHEATER

Mazda and Bose engineers worked to jointly develop an audio system designed specifically for the MX-5 Miata. Standard in the MX-5 Miata Grand Touring and Club, the Bose® audio system keeps your music crisp and clear even with the top down. Nine speakers, perfectly situated, including two positioned in each of the MX-5 Miata's headrests, create an immersive experience to invigorate all of your senses.

Every Mazda is designed to inspire.
We refine, so you can focus on the essential.
Our measurements are emotions. Our stats, stories.
Each decision is made to heighten your mood, your senses and your abilities.
Because to us, the road is a source of discovery, to which there is no end.
